Project: P942 **Title:** Combined Air Cargo/Passenger Terminal **Rgn Reqs FY:**

Installation: CAMP LEMONNIER DJIBOUTI **Project MTD:** **CWE($K):** 127,760 **Project CCN:** 14112

Region: CNR EU **Pri:** **Lead Propt:** CNIC N3 **Pri:** **COCOM:** AFRICOM TRANSCOM

Mission of the Facility: This is the FY25 #2 priority for CLDJ and provides 24/7 air operations and logistic support center in direct support of USAFRICOM, USCENTCOM, USSOCOM, USTRANSCOM, and other Gov't agencies in East Africa area of operation.

Project Scope: Project constructs a 133,747 SF centralized Airfield complex for Passenger and Cargo terminals, Logistics Air Support, and Air Operations. Project also re-sites all functions from Freedom apron to Enduring apron. This will co-locate C5 and 747 aircraft operations with the dedicated aircraft parking at Enduring apron.

Impact if not Provided: Strategic Reception Staging Onward Movement and Integration (RSOI) of deploying valuable cargo and personnel will continue to be inadequate without proper indoor cargo, passenger, customs, security, processing, storage and hazardous material facilities.

Region Mission Alignment: 4

CLDJ is the only Aerial/Sea Port of Embarkation/ Departure for AFRICOM Theater Security Cooperation and Humanitarian Assistance engagements. The project directly supports National Security requirements for global posture in East Africa. The cargo/passenger terminal will provide a vital role in fulfilling strategic airlift requirements for USAFRICOM, USCENTCOM, USSOCOM, USTRANSCOM & other agencies on the African continent. This location serves as a vital link between U.S. security interests on the Arabian Peninsula & East Africa. Just the East Africa Area of Operation is the size of the USA.

Lead Proponent Mission Alignment:

Region Readiness Support: 4

Project directly supports joint forces and Navy QOL initiative in a Fleet Concentration area by providing a permanent AirOps Complex. The complex removes personnel from the harsh environment and provides additional vendor dining facility options on the east side of CLDJ. The project improves workplace productivity and efficiency to safely and quickly move cargo/passengers. The air cargo and logistic center support spaces will greatly enhance the quality of service by significantly improving the handling operations, security and storage of cargo and supplies.

lead Proponent Readiness Support:

Region Operational Cost: 0

No cost savings to report.

Lead Proponent Operational Cost:

Region Severity Statement: 4

AirOps cannot adequately support COCOMs' current & projected Region air/sea RSOI requirements. CLDJ has a 98K SF cargo/passenger deficit. At the current undersized warehouses, the large off/on loading equipment cannot be operated efficeintly within existing buildings. Most evolutions & staging are done outside in the elements, which creates a high risk to vaulable warfighter cargo & supplies.

Lead Proponent Severity Statement:

Project: P942 **Title:** Combined Air Cargo/Passenger Terminal **Rgn Reqs FY:**

Region Urgency Statement: 4

Failure to execute in past FYs has resulted in critical warfighter capability gap. The USAFRICOM, USCENTCOM, USTRANSCOM & other agencies' continued force structure growth, at CLDJ & down-range sites, has overburdened RSOI operations to inadequately support vital warfighter capabilties. Project also assures basic supplies & goods (food, water) are received to sustain mission & base operations.

Lead Proponent Urgency Statement:

RAC: **ROI:** **PCI:**

Stakeholder Endorsement

Region Consolidation/Footprint Reduction (SF): 0

2. Expected 10% footprint reduction by maintaining co-location of the various air operation functions.

Lead Proponent Consolidation/Footprint Reduction (SF):

Region Target Investment Zone: 1

4. MDI of 85 and existing facilities have a Q-rating lower than 60.

Lead Proponent Target Investment Zone:
