Project: P930 **Title:** Galley II **Rgn Reqs FY:**

Installation: CAMP LEMONNIER DJIBOUTI **Project MTD:** **CWE($K):** 67,920 **Project CCN:** 72235

Region: CNR EU **Pri:** **Lead Propt:** CNIC N9 **Pri:** **COCOM:** AFRICOM

Mission of the Facility: Facility provides critical nutritional sustainance for the base population, which is currently over 5,000 personnel.

Project Scope: Constructs a 35,542 SF one-story dining facility to provide additional capacity. The project scope was based upon a camp population of 5,115 steady state plus 2,075 surge persons and UFC 2-000-05N Appendix F Criteria for Category Code 722-35.

Impact if not Provided: If Galley II is not constructed, the current galley will continue to experience overcrowded conditions, extended serving hours operating 22 out of 24 hrs prep/serving 8,800 meals per day, which results in 2 hrs for essential cleaning time.

Region Mission Alignment: 3

Directly supports documented Joint or Combatant Commander Mission capability requirement when Navy is the executive agent. Project will directly supports AFRICOM, SOCOM, CENTCOM,TRANSCOM and other mission support functions. Due to the current Galleys location (distance) and capacity issues meals are delivered to SOCOM utilizing operational training space for dining and storage. The current fully expanded Galley was sized for a capacity of approximately 3,700 people. The current steady state population is 5,115 people with expected growth of approximately 6,000 people in the next 3-5 years.

Lead Proponent Mission Alignment: 1

Aligns with Program mission and supports operations. The size of the current Galley is not meeting the current population which is expected to grow even more.

Region Readiness Support: 4

Project is documented and approved in support of exceptionally high impact area critical to Fleet operations with no off-base support. Galley must serve 100 percent of the camps population. No off base support can accomplish this mission. Galley operation is critical in supporting the warfighter. If Galley II is not constructed, the current galley will continue to experience overcrowded conditions, continual equip breakdown and extended serving hours, which results in decreased prep time and limited essential cleaning time.

lead Proponent Readiness Support: 2

Supports Quality of Service for the total Navy workforce in a forward operating area with no off-base alternative. There is overcrowding and shortening of prep and cleaning hours. Galley is required to serve 100%.

Region Operational Cost: 0

No significant cost savings.

Lead Proponent Operational Cost: 0

No operatinal cost savings have been documented

Region Severity Statement: 3

Requires unrealistic work around to maintain warfighter capability or asset. Current Galley prep areas cannot sustain the throughput of personel. Due to overcrowded conditions food is delivered to SOCOM, combat cafe and off Camp location Camp Chabelley (approx 20 miles away).

Lead Proponent Severity Statement: 2

Primary mission accomplished with moderate workarounds. Status quo requires inefficient work around to maintain capability.

Project: P930 **Title:** Galley II **Rgn Reqs FY:**

Region Urgency Statement: 4

Resourcing required in BY to meet Existing Force Structure Growth arriving and existing Ops permanent party new requirement. Original Galley was sized for a camp population of 2,200 people. Current Camp population is almost double that amount and is projected to double again by 2025 according to the Navy Region EURAFCENT Master Plan dated November 7, 2019. Current expansion sized for 3700 people.

Lead Proponent Urgency Statement: 4

Resourcing required in BY to meet Existing Force Structure Growth arriving. Camp has double the numbers and will be doubling again in the future.

RAC: I **ROI:** 28.00 **PCI:** N/A

Project: P942 **Title:** Combined Air Cargo/Passenger Terminal **Rgn Reqs FY:**

Installation: CAMP LEMONNIER DJIBOUTI **Project MTD:** **CWE($K):** 127,760 **Project CCN:** 14112

Region: CNR EU **Pri:** **Lead Propt:** CNIC N3 **Pri:** **COCOM:** AFRICOM TRANSCOM

Mission of the Facility: This is the FY25 #2 priority for CLDJ and provides 24/7 air operations and logistic support center in direct support of USAFRICOM, USCENTCOM, USSOCOM, USTRANSCOM, and other Gov't agencies in East Africa area of operation.

Project Scope: Project constructs a 133,747 SF centralized Airfield complex for Passenger and Cargo terminals, Logistics Air Support, and Air Operations. Project also re-sites all functions from Freedom apron to Enduring apron. This will co-locate C5 and 747 aircraft operations with the dedicated aircraft parking at Enduring apron.

Impact if not Provided: Strategic Reception Staging Onward Movement and Integration (RSOI) of deploying valuable cargo and personnel will continue to be inadequate without proper indoor cargo, passenger, customs, security, processing, storage and hazardous material facilities.

Region Mission Alignment: 4

CLDJ is the only Aerial/Sea Port of Embarkation/ Departure for AFRICOM Theater Security Cooperation and Humanitarian Assistance engagements. The project directly supports National Security requirements for global posture in East Africa. The cargo/passenger terminal will provide a vital role in fulfilling strategic airlift requirements for USAFRICOM, USCENTCOM, USSOCOM, USTRANSCOM & other agencies on the African continent. This location serves as a vital link between U.S. security interests on the Arabian Peninsula & East Africa. Just the East Africa Area of Operation is the size of the USA.

Lead Proponent Mission Alignment:

Region Readiness Support: 4

Project directly supports joint forces and Navy QOL initiative in a Fleet Concentration area by providing a permanent AirOps Complex. The complex removes personnel from the harsh environment and provides additional vendor dining facility options on the east side of CLDJ. The project improves workplace productivity and efficiency to safely and quickly move cargo/passengers. The air cargo and logistic center support spaces will greatly enhance the quality of service by significantly improving the handling operations, security and storage of cargo and supplies.

lead Proponent Readiness Support:

Region Operational Cost: 0

No cost savings to report.

Lead Proponent Operational Cost:

Region Severity Statement: 4

AirOps cannot adequately support COCOMs' current & projected Region air/sea RSOI requirements. CLDJ has a 98K SF cargo/passenger deficit. At the current undersized warehouses, the large off/on loading equipment cannot be operated efficeintly within existing buildings. Most evolutions & staging are done outside in the elements, which creates a high risk to vaulable warfighter cargo & supplies.

Lead Proponent Severity Statement:

Project: P942 **Title:** Combined Air Cargo/Passenger Terminal **Rgn Reqs FY:**

Region Urgency Statement: 4

Failure to execute in past FYs has resulted in critical warfighter capability gap. The USAFRICOM, USCENTCOM, USTRANSCOM & other agencies' continued force structure growth, at CLDJ & down-range sites, has overburdened RSOI operations to inadequately support vital warfighter capabilties. Project also assures basic supplies & goods (food, water) are received to sustain mission & base operations.

Lead Proponent Urgency Statement:

RAC: **ROI:** **PCI:**

Stakeholder Endorsement

Region Consolidation/Footprint Reduction (SF): 0

2. Expected 10% footprint reduction by maintaining co-location of the various air operation functions.

Lead Proponent Consolidation/Footprint Reduction (SF):
